

Science exhibition held

Volunteers from Dream India, an NGO organised a Science Exhibition for the students of Chennai Corporation School at Kamaraj Avenue, Adyar on November 21. Matching with the need of the hour, students came with models and exhibits in all sizes. The exhibits include tri cycle, Electric train, Robot, and models of Human Body parts, which brought out the skills of these students.

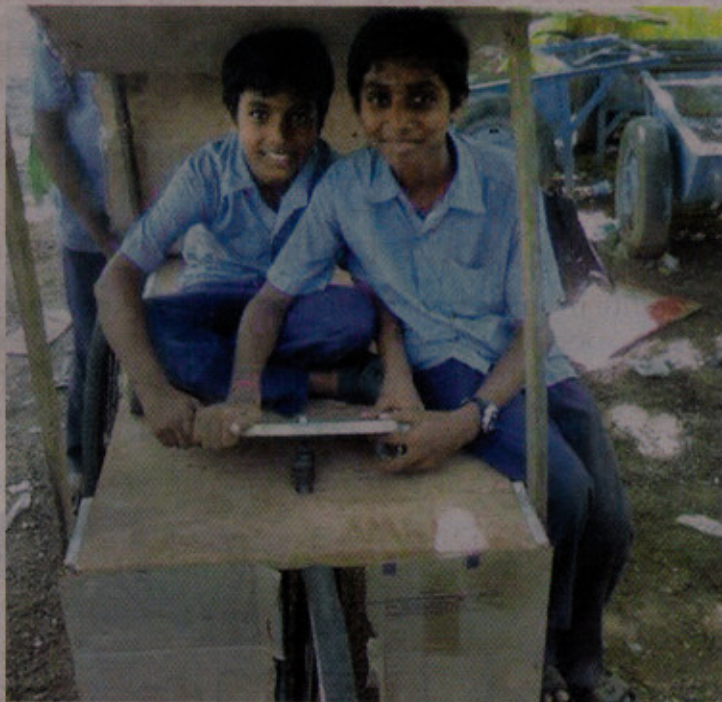

They also sent their messages to the humanity by exhibiting models on 'Rain water harvesting' and 'threats of global warming'.

While Navaneethan and Chandraprakash displayed their innovation on tricycle, Sarath and Saranraj displayed the models of 'Volcano'.

Dream India volunteers interacted with students and brought out their innate skills in various art forms. Prizes were distributed for the participants based on their models.

Earlier, Dream India organised Children Day celebrations on November 14 for these students. Students completely enjoyed playing games like dumb charades and man hunt. Sweets and gifts were given to all children at the end of the session.

Dream India is a registered NGO started by young IT professionals five years ago. Currently, there are around 500 members in Dream India spread across the globe. They

Navaneethan and Chandraprakash students of Chennai Corporation School at Kamaraj Avenue, Adyar demonstrating their innovation to their friends during the Science Exhibition conducted by Dream India 2020.

have established chapters at Chennai, Mumbai, Pune, Delhi, Hyderabad and Bangalore. In Chennai, they conduct study classes on Personality

Development and Spoken English at three centers viz., Adyar Valasaravakam and Anna Nagar.
